ANALYSIS REQUEST FORM PREPATATIVE LIQUID CHROMATORGRAPHY

Fill in the blank fields

User Data						
Date:		Name:				
Email:		Phone number:				
Main Researcher:		Department:				
Center/Company:		Mailing Address:				
VAT number:						
Project Type and Reference:						
Sample information (fill in the blank fields corresponding to the requested analysis)						
Users shall provide the method used for the purification of the compound on an analytical scale (column and solvent), providing a chromatogram or experimental proof thereofore.						
HPLC-Prep (Agilent)			FPLC-ÅKTA			
Sample information						
The complete protocol for sample collection and preparation shall be provided to the service staff.						
HPLC-Prep	Analyte to purify	Liquid samples		Solid samples		Additives
		Solvent	Concentration	Solvent*	Weight	
FPLC-ÅKTA	Protein to purify	Size	pI	Cultivation origin	Buffer (pH/molarity)	Additives
* In case the sample is delivered solid, the user shall indicate in which solvent the sample shall be solubilised (ensuring complete dissolution).						
Nº	Sample name	Observation	Nº	Sample name	Observation	
Facility Observations
